SUMMARY

25X1D A small, regimental-size barracks installation is located in the northern corner of Skole (49-02N 023-31E) (Figure 1). The installation covers approximately 62 acres and appeared to be under construction in [REDACTED]

A driver training circuit was the only

training facility noted within 15 kilometers (km) of Skole. A double-fenced storage area, possibly for explosives, is located across the main road from the installation.

The installation was covered by one KEY-HOLE mission in [REDACTED]

DESCRIPTION OF INSTALLATION

Railroad Service

Rail lines pass through Skole, but do not serve the installation.

Road Service

Good all-weather roads serve the installation, which is adjacent to the Stryy-Oryava road.

Administrative and Troop Housing Area

Area D contains two C-shaped multistory barracks, one multistory administration building, three support buildings and four storage buildings.

Ammunition Storage Area

Area F is double fenced and contains one

guard building at the entrance, one guard tower, and one unidentified 75- by 35-foot building possibly used for explosives storage, and a possible underground bunker.

Equipment Storage/Maintenance Area

Within Area D is a 325- by 25-foot motor vehicle maintenance/storage building (J). A cleared area in front of this building is possibly a hardstand for vehicles. A road leads from the building to the driver training track.

Driver Training Area

The installation contains an oval-shaped driver training circuit (M), approximately 550 feet long and 325 feet wide.
